

Real Estate Solutions

Streamline the entire leasing lifecycle into one platform with Sprinterra’s customized property management software that is designed with your unique requirements in mind.

	 Sprinterra Customized System	Off-the-shelf Platforms
Scalable property management software customized to fit your business processes and goals	✓	✗ *
Internal Systems Integration (accounting, reporting, payment, check, etc.)	✓	✓
Redundant Tasks Automation	✓	✓
Responsive Design (works on desktops, laptops, and mobile devices)	✓	✓
Configurable Rental Workflow	✓	Partially Included
Customizable Features (Tenant Application, Accounting/Payment, Calendar and Schedule, Background Check Integration, Document Signing Integration, etc.)	✓	✗ **
Software Rights	✓	✗ ***
Long Term Savings	✓	✗ ****

* A “one-size-fits-all” approach means your business workflows must be altered to fit their platform

** Off-the-shelf applications are not highly customizable

*** You cannot own, but rather only lease SaaS off-the-shelf solutions, meaning - you will lose access if you decide to stop monthly payments

**** Unlike Sprinterra pricing model, leasing of SaaS off-the-shelf platform results in recurring monthly charges for as long as you use this platform steady increasing the cost
